

Can you spot Chilean needle grass?

Identification of Chilean needle grass before flowering and seeding is essential for more effective management of this invasive grass.

Join us at Garra Travelling Stock Reserve to discuss the various methods of identifying and managing Chilean Needle Grass.

Expert staff will be on-ground, including:

- Brad Webb, Cabonne Council weed biosecurity officer
- David Dickerson, Cabonne Council weed biosecurity officer
- Phil Cranney, Central Tablelands Local Land Services SLSO Pastures
- Marita Sydes, Central tablelands Local Land Services Weeds Coordinator

Further information on Chilean needle grass can be found on NSW WeedWise –
www.weeds.dpi.nsw.gov.au/Weeds/ChileanNeedleGrass
